What is the classification of **Employee ID (Category/Measure?)**? **Manager at 1. Level (Category/Measure?)**?

Answer 1: Employee ID : Category, Manager at 1. Level : Measure

SS1:

The image displays two screenshots of the SAS Visual Analytics web interface, specifically the 'VA1-Practice3.1' report editor. The browser address bar shows the URL 'vfi-071.engage.sas.com/SASVisualAnalytics/'.

Top Screenshot: The 'Data' panel on the left shows the 'EMPLOYEES_CLEAN' dataset. Under the 'New data item' section, 'Employee ID - 647' is selected. Its 'Classification' is set to 'Category'. The 'Measure' section is currently empty.

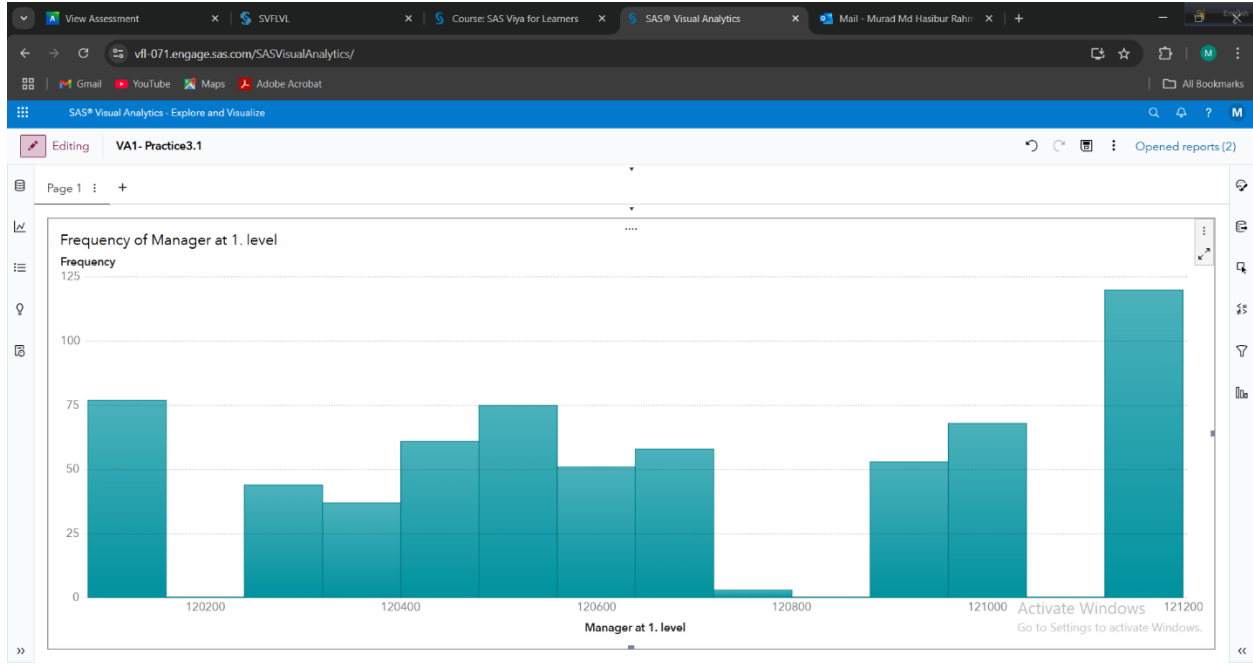

Bottom Screenshot: The 'Data' panel shows the same dataset. In the 'Measure' section, 'Manager at 1. Level' is selected, and its 'Classification' is set to 'Measure'. The 'Format' dropdown is also visible.

Both screenshots show a central canvas with a 'Design a Report' prompt: 'Drag objects or data items onto the page, or start from a page template. Select a template'. An 'Activate Windows' watermark is visible in the bottom right corner of the canvas area.

2) What does the Frequency data item represent?

Answer 2: Count of occurs

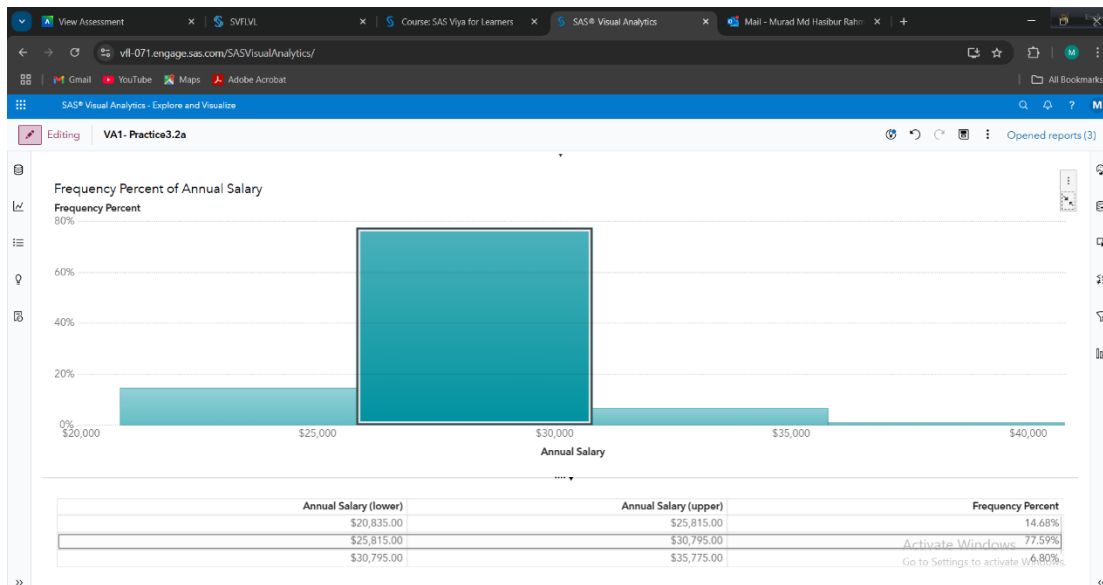

SS2:

Into which range do the majority of salaries fall?

Answer 1: \$25000 to\$30000

SS1:

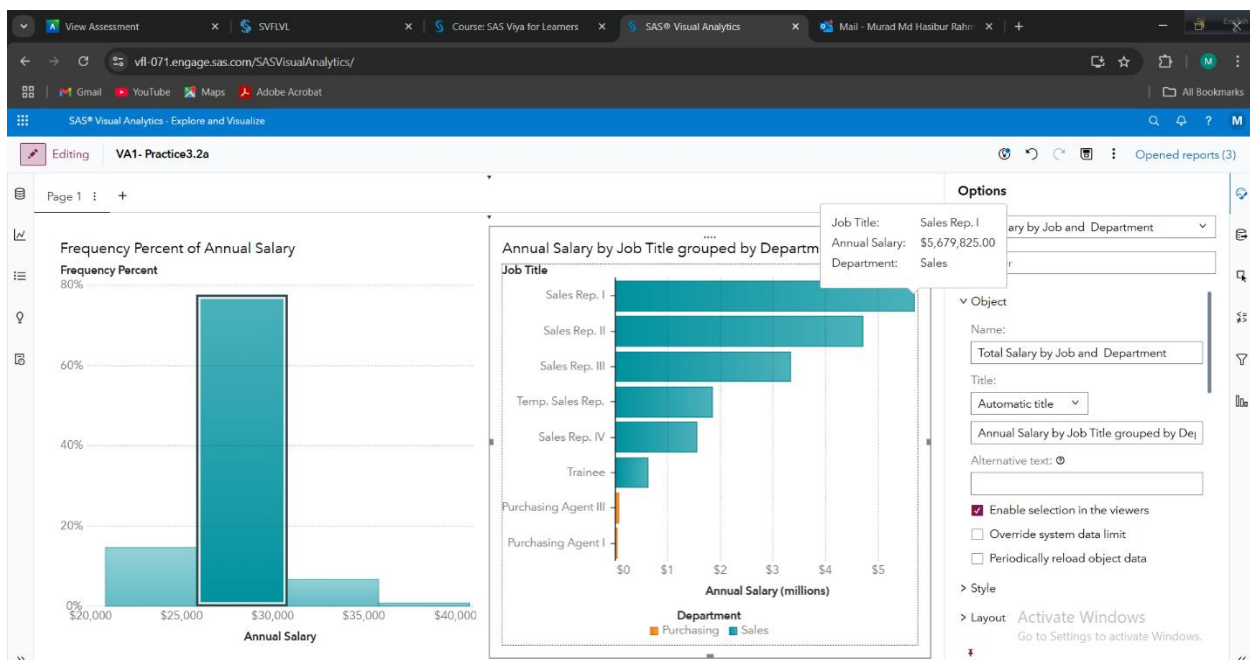

2) In which department are a majority of our salary costs spent (Purchasing/Sales?)?

For which job title?

Answer 2: Department: Sales, Sales Rep1

SS2:

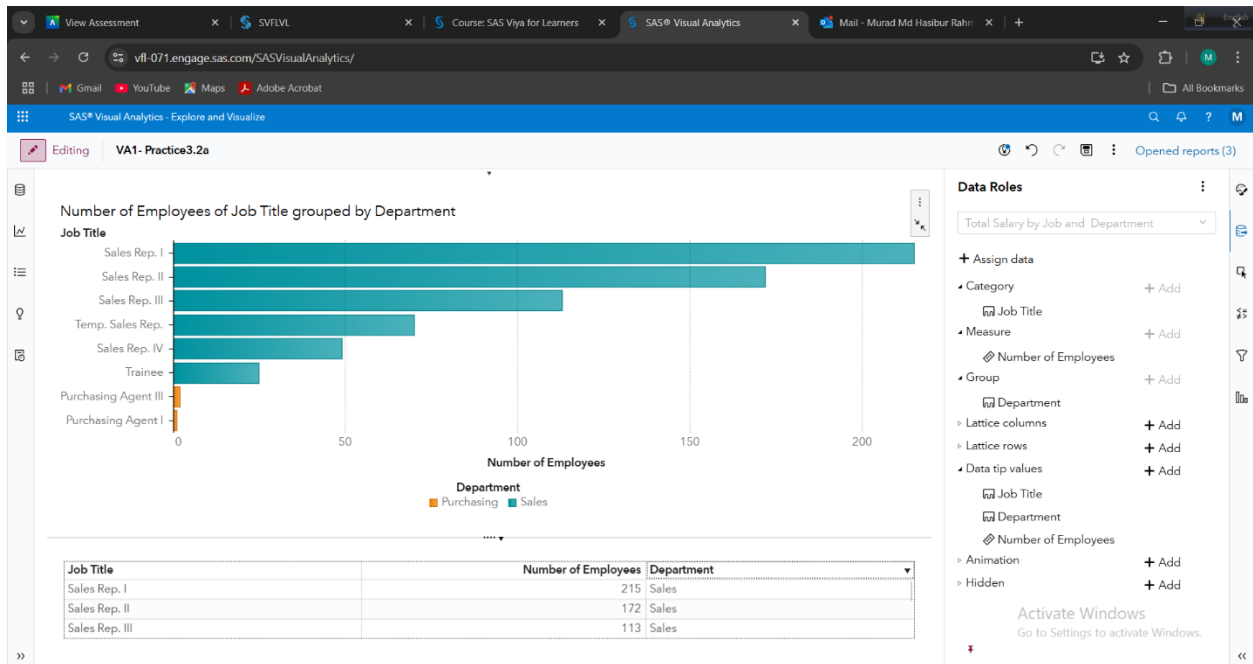

What could be some reasons why salary costs are so much higher for this group?

Hint: In the right pane, click Data Roles. Then, for the Measure role, select Number of Employees.

Answer 3: Sales Department Cost is higher than Purchasing Department cost

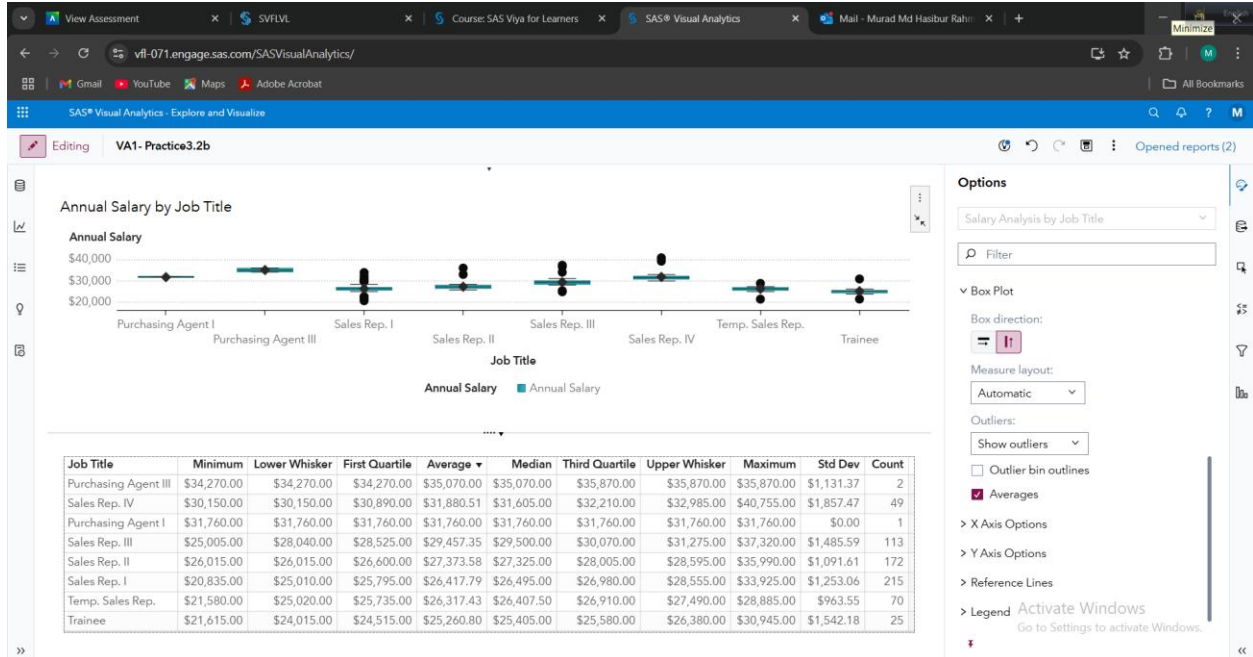

SS3:

Which job title has the highest average salary? The lowest?

Answer 1: Purchasing agent III has the highest average salary. Trainee has the lowest average salary.
